

dh Red Angus

WHAT **dh** BULLS ARE KNOWN FOR

- ◆ Our bulls will not fall apart after they get to your ranch - we do not over-fatten our bulls which prevents the first-year weight loss and increases breeding productivity. They are also not pampered or barn kept, they are built for endurance.
- ◆ We have low birth weight calves with terrific Calving Ease (CED and CEM) genetics allowing ranchers to save more cattle during calving.
- ◆ We have amazing Maintenance Energy ME genetics which make the progeny able to maintain and gain weight while requiring less feed but still receiving a high profit at sale.
- ◆ Their posterity make great steaks! Our Yield Grade and Body Fat genetics produce incredible beef as well as ranch-to-rail profitability.

The Holliday Ranch bought their original purebred Red Angus herd from the Blue Jay baseball team in 1978. Over the past 40 years we genetically-wired our bulls with the perfect combination to breed high quality calves. Whether you are wanting to build your herd, gain bulls with endurance or increase profitability; Darrel Holliday Ranch has the bulls you need.
